

The Plaza at Golden 1 Center: Is it Public or Private?

The Sacramento Kings are calling the plaza in front of the Golden 1 Center a place where people can come together. Sacramentans have already begun enjoying the plaza before events. However, to the surprise of recent visitors, the plaza is not open to the public on event days. Two hours before events at the arena, rows of metal detectors block the plaza's three entrances. The Kings want ticketed fans only to enter the plaza.

Plaza closures will likely be limited or nonexistent in the near future. The plaza will be changed once the construction of the hotel tower and Downtown Commons is completed. New entrances will create more access for people who are not going to the Golden 1 Center.
